Suitable for:

Welding co-ordinators and other specialists involved in the qualification of welding procedures, and/or welders and welding operators.

Course Content:

An introduction to the latest European Standards for welding procedure qualification (BS EN 15614) and welder qualification (BS EN 287 and 9606).

An examination of the relevant standards, showing how welding procedures and welder qualifications are developed with regards to mechanical testing NDT and how essential variables affect their use. Practical exercises in class will show how procedures are constructed and reviewed.

Course Objectives:

- To appreciate how welding procedures and welder qualifications are constructed

Career Progression:

- [IIW/EFW Diploma - Fabrication and Application \(Foundation\)](#)
- [IIW/EFW Diploma - Fabrication and Application \(Intermediate\)](#)
- [IIW/EFW Diploma - Fabrication and Application \(Advanced\)](#)
